

## Appointment of Yves Morin as President: goals of its mandate

At the last UITIC-Calzatecnia Congress held in Mexico, from 7th to 9th October 2010, the first speech of the new President Yves MORIN pointed out the great potential of the UITIC.

*I am proud and happy to be elected as President of UITIC for several reasons:*

*First, UITIC was founded in France, Evian, in 1972, the "French association" then became an "international" association. Then, two founders of UITIC were managers at CTC at that time, Jean BARADUC and Magdeleine JANERIAT.*

*Last, the third founder, Georgy BIDEGAIN, was a French shoe manufacturer; he was the uncle of Jean-Pierre BIDEGAIN who is present today.*

*I would like to remind the objectives of our Association:*

- to promote and develop the technical knowledge in our industry,
- to organize international congresses,
- to stimulate exchange of information between its members.

*Accordingly, my goals will be:*

*- To continue the job done by the prior team conducted by Dr. César ORGILÉS. He opened the association to worldwide members (Japan, Taiwan, Mexico...), he managed and succeeded to organize the first UITIC Congress to be held outside Europe, the venue was in Tunis, Africa, held in 2005, and today the first Congress in Latin America, in Leon, Mexico.*

*- To open our Executive Committee to members from Africa and Asia such as technicians from China, India, Vietnam, etc. It is important to remember that the worldwide production of shoes*

*is approximately 20 billion pairs, of this figure, Asia manufactures about 80 %. A significant step forward will be to open our Executive Committee and to agree to a representative from Africa as 1st Vice-President, Mr. Malek KHELIL, from CNCC. In consideration of the changing market, we can imagine a Congress located in Asia in the near future...*

*- Another aspect to consider is the evolution of our Association. Nowadays we have seen that management is most important to our industry: Management of Innovation, of Human Resources, of Information, of Marketing, of Fashion, etc.*

*We have already introduced management topics in our Association, separate from topics of a technical nature, for example our "Award for Management". I feel that we must pay more attention to this dimension in the future.*

*We could also consider welcoming new management members in our Association, who are not only Technical Managers.*

*- Finally our Association should be more open to the world, stimulate economic efficiency, stimulate management issues, among them H.R. is one of the most important. And of course, our Association must stimulate innovation in environment, "Sustainable growth" now being a major issue.*

*In conclusion I have a gratifying duty to perform which I know will give us all much pleasure. After resigning from his post in this General Assembly, the Executive Committee proposed to appoint Dr. Cesar ORGILÉS as an Honorary Member of the International Association of Shoe Industry Technicians, the highest honor which we can allow upon any of our own Members.*

*Dr. ORGILÉS has been a Member of the UITIC*

*Committee for 33 years; he held the office of Vice-President from 1983 to 1991. He then held the office of President till present, he has been our president for 19 years, which is the longest term of office in our Association.*

*And now, it is a great honor to award Dr. SCHMEL with the Diploma of Honorary Membership. Dr. SCHMEL joined the Committee in 1987, he held the office of Treasurer from 1996 till 2008. He dedicated 12 years to our Association's accounts. Dr. ORGILÉS and Dr. SCHMEL deserve to be recognized and honored for their valuable contribution to the development of our Association and their active interest in expanding the Association across the European frontiers. We hope we will enjoy their companionship for many years to come.*

*I also want to congratulate our General Secretary Esperanza ALMODÓVAR, who held this position from 1999 until 2010, without her involvement nothing would have been possible.*

*Finally, I also want to congratulate all of you for the work completed up until today and with a specific dedication for Roger MAES who brought to our Association a clever view of our Market and so many winning cards. This has proven useful in difficult times!*

*Thank you very much for your support, "Muchas Gracias".*

Yves MORIN  
UITIC President

## UITIC AT FMM&T INDIA

During fmm&t trade fair on Saturday 14 May, as UITIC President, Yves MORIN delivered the presentation "From Globalization to Corporate Social Responsibility". The purpose of his communication was to explain how, in Western countries, new consumer approaches regarding sustainable growth have a direct impact on the way companies may drive their business. Specifically, in terms of social responsibility, different social standards are now promoted and requested by buyers for international trade.
